

# STEAM GENERATOR

## SPECIFICATION SHEET

Made in the USA by Amerrec, a leading manufacturer of steam and sauna equipment

### Features:

- Stainless steel tank and water level probes provide years of trouble-free operation
- Removable heating elements provide easy and economical service
- Custom Foeder Crafters control allows for extended steaming of barrels
- Small size allows unit to be moved easily
- ETL listed for USA and Canada
- Tested to IEC standards
- One-year commercial warranty

### Electrical Information:

- 8-foot 220v locking L6-30P power adapter installed
- 30A dedicated circuit required
- Can be hard wired in the field for 208-240v 1/3 phase power

### Plumbing Information:

- Water inlet:  $\frac{3}{8}$ " NPT
- Steam outlet:  $1\frac{1}{2}$ " tri-clamp adapter
- Pressure relief:  $\frac{3}{4}$ " NPT
- Drain outlet:  $\frac{3}{4}$ " NPT

### Installation:

- Install in dry, well ventilated area.
- Install generator level, on its base or hung on a wall.
- Provide adequate access for service.
- Run cold (preferably conditioned) water line with shut off valve.
- Run steam line as short as possible. Slope pipe/hose to avoid creating condensation build up. Do not create traps or pipe obstructions.
- Run  $\frac{3}{4}$ " pressure relief and drain lines in accordance with codes.

### Dimensions and weight:

- $16\frac{1}{2}$ " x 15" x  $6\frac{1}{4}$ "
- 35 lbs.
